***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-10, drawn to a process for inhibiting a polymerization, classified in class 203, subclass 8.
- II. Claims 11-18, drawn to a system for purifying an easily polymerizable compound, classified in class 202, subclass 205.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the apparatus as claimed can be used to practise another and materially different process such as: adsorption/absorption, liquid-liquid extraction, extractive distillation and by the method or process described by applicants at page 2, lines 6+ through page 3, lines 1-7 and at the paragraph bridging pages 3 and 4 of the specification. Likewise, the process as claimed can be practiced by another materially different apparatus such as that described by applicants e.g., at the paragraph bridging pages 1 and 2, and at page 3, second full paragraph of the specification.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 1764

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
